## Praying For Each Other

To pray for others, we must absolutely have a living faith. Christ's question. "When the Son of man cometh, shall he find faith on the earth?" (Luke 18:8) suggests that it may be a rare experience during the last days, but successful prayer for others is impossible without it. Roger J. Morneau

A Form of community outreach coordinated with Elsie's ministry. To give the children an opportunity to share their love for Christ with the residents at the home. It was a wonderful experience for both the residents and the children. The children talked with the residents about the Adventurer Club, recited their pledge & law, sang their Adventurer song and passed out Inspirational Valentine crafts that they had made. The residents expressed what a joy it was to be visited by such well mannered & charming children. The children were an excellent representation of their club & the God they serve. Heritage Woods Nursing home is located at 550 Kildeer Drive, in Bolingbrook This was our 2nd visit!

## Pew Chair Testing Begins

At some time on any given Sabbath you may have sat on a pew that left you thinking to yourself, any moment now, I'll be sitting on the floor and hoping no one will notice. I've sat on a pew and prayed no one would sit next to me or we both will be on the floor. Yes, it's that bad! I must say, we've gotten every penny's worth out of our pews. The cushions are sad and there aren't many more places to add a bolt here or a screw there. We have Ken and Jan Parfitt and Ken Scranton to thank for keeping us off the floor. Take the time to test drive the pew sample in the church foyer. This is an expense we can't put off for much longer. God house deserves better. Take a moment this Sabbath to test drive a pew chair. *I've often wondered what goes through the mind of a visitor who sits on an unsteady well worn pew?*

*Well worn pews are a good thing!*

# SCIENCE FAIR, YIKES!

**Congratulations  
Aria and Autumn!**

Our very own Aria and Autumn Mallare participated in the North Shore Seventh-day Adventist Academy Science Fair for the 2010-2011 school year. My sources tell me that Aria place 1st, in explaining New Jerusalem our heavenly home, and Autumn placed 2nd in Seed Attributes. Did you know that schools have been participating in Science Fairs since the 1950's. Mom's and Dad's all over American can rest up until next years science fair project.
